REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

None of the applied references teach or suggest conducting the reaction in a solvent excluding DMSO. Moreover, given the unpredictability of catalysts, the references do not provide a reasonable expectation of success when using a phase transfer.

An updated search failed to uncover a reference that would have motivated those of ordinary skill to modify a known process to include a reaction solvent excluding DMSO or a phase transfer catalyst.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
